

Remarks

As noted in § 41.33, Amendments filed on or after the date of filing a brief pursuant to §41.37 may be admitted: to cancel claims, where such cancellation does not affect the scope of any other pending claim in the proceeding (as is the case in the instant application).

Request for Correction

In accordance with the relevant statutes and precedents the Assignee is entitled to expect and receive: an unbiased patent application examination conducted by an Examiner with knowledge of the relevant arts who follows the law. To date, the activity associated with the instant patent application bears no resemblance to the patent application examination standards dictated by statute and precedent. Among other things this has resulted in the allowance and issue of dozens of apparently invalid patents. Prompt correction is requested.

Reservation of rights

The Assignee hereby explicitly reserves the right to present the previously modified and/or canceled claims for re-examination in their original format. The cancellation or modification of pending claims to put the instant application in a final form for allowance and issue is not to be construed as a surrender of subject matters covered by the original claims before their cancellation or modification.

Conclusion

The pending claims are of a form and scope for allowance. Prompt notification thereof is respectfully requested.

Respectfully submitted,
Asset Trust, Inc.
